ABOUT US

History

Pikadel Ceram is the outcome of over three decades of experience, expertise, and a fresh vision in the ceramic and tile industry. Our commitment has always been to deliver products that embody premium quality, long-lasting durability, and timeless beauty. As the official representative of renowned brands such as Apadana Ceram and Hafez Tile, we offer a diverse selection of porcelain, nano-polished, and white-body ceramics in cutting-edge designs and sizes — trusted by architects, developers, and construction professionals alike.

تاریخچه

پیکادل سرام حاصل بیش از سه دهه تجربه، تخصص و نگاهی نو در صنعت کاشی و سرامیک است. ما در این مسیر همواره کوشیده‌ایم محصولاتی را ارائه دهیم که تلفیقی از کیفیت ممتاز، دوام بالا و زیبایی ماندگار باشند. به عنوان نمایندگی رسمی برندهای معتبر آپادانا سرام و کاشی حافظ، ما مجموعه‌ای متنوع از سرامیک‌های پرسلان، نانوپولیش و بدنه سفید را در ابعاد و طراحی‌های روز دنیا در اختیار معماران، سازندگان و فعالان صنعت ساختمان قرار می‌دهیم.

Environmental Commitment

Pikadel Ceram remains steadfast in its dedication to sustainability and environmental responsibility. By selecting eco-friendly products, optimizing energy consumption in our processes, and advocating for green architecture, we strive to minimize our ecological footprint. We believe a truly sustainable future is built when elegance and quality go hand in hand with respect for the planet. Our mission is to create spaces where people feel comfort — and the Earth remains protected.

تعهدات زیست‌محیطی

پیکادل سرام متعهد است که همگام با توسعه، مسئولیت خود در قبال محیط‌زیست را فراموش نکند. ما با انتخاب محصولاتی سازگار با طبیعت، بهینه‌سازی مصرف انرژی در فرآیندها و ترویج معماری سبز، در جهت کاهش اثرات زیست‌محیطی گام برمی‌داریم. باور داریم که آینده‌ای پایدار تنها زمانی محقق می‌شود که زیبایی و کیفیت با احترام به زمین همراه شوند. رسالت ما خلق فضاهایی است که هم انسان در آن آسایش یابد و هم محیط‌زیست در آن حفظ شود.

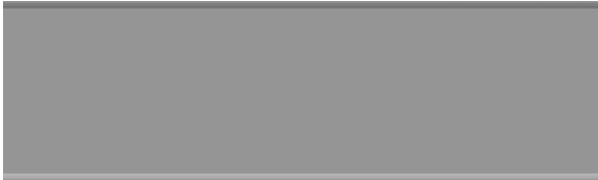

Design Philosophy

At Pikadel, design is not a phase in production — it is the very soul of our philosophy. We believe every tile must tell a story of beauty, authenticity, and modernity. Inspired by contemporary architecture and a spectrum of styles from minimal to classical, we curate unique patterns, textures, and finishes that transform spaces into living works of art. To us, ceramics are more than building materials; they are instruments for creating inspiring, modern, and enduring environments.

طراحی در پیکادل

در پیکادل، طراحی تنها یک بخش از فرآیند تولید نیست؛ بلکه قلب تپنده فلسفه ماست. ما باور داریم که هر محصول باید روایت‌گر زیبایی، اصالت و نوگرایی باشد. تیم ما با الهام از معماری معاصر و سبک‌های مینیمال تا کلاسیک، مجموعه‌ای از طرح‌ها و بافت‌های منحصر به فرد را انتخاب و عرضه می‌کند که هر کدام توانایی تبدیل یک فضا به اثری هنری و متفاوت را دارند. در نگاه ما، کاشی و سرامیک تنها یک مصالح ساختمانی نیست؛ بلکه ابزاری است برای خلق فضاهایی الهام‌بخش، مدرن و ماندگار.

SYMBOL

TEXTURE	Description
	Conic tiles feature angled edges — not fully sharp 90° and not rounded — creating a refined, elegant look.
	Thermowood is natural wood enhanced by heat treatment, offering durability, stability, and timeless beauty.
	Rockstone tiles replicate the natural beauty of stone, combining strength with timeless elegance for modern and classic spaces.

ICON	Description	
	Porcelain	پرسلان
	Thickness	ضخامت
	Acid Resistant	مقاوم در برابر اسید
	Frost Resistant	مقاوم در برابر یخ زدگی
	Heat Resistant	مقاوم در برابر گرما
	Low Water Absorption	جذب آب کم
	Trans Glaze	لعاب براق
	Matt Glaze	لعاب مات

TECHNICAL FEATURES

Technical features of porcelain Tiles				
Property	Standard No	Standard Limits	Apadana ceram Limits	
Side Dimension	ISO-10545-2	0.50%	0.30%	
Thickness		5%	4%	
Orthogonality		0.50%	0.30%	
Edge straightness		0.50%	0.30%	
Planarity of center		0.50%	0.30%	
Planarity of edge		0.50%	0.30%	
Water absorption	ISO-10545-3	<0.5%	<0.5%	
Breaking strength	ISO-10545-4	MIN. 30N/mm ²	MIN. 38	
Modulus of Rupture		Thickness >7.5mm: MIN. 1100N	MIN. 1500	
Abrasion Resistance		Thickness >7.5mm: MIN. 700N	MIN. 1500	
Linear Thermal Expansion coefficient	ISO-10545-7	Classes 0–5	As Indicated in Catalogue for Glazed Porcelain (PEI)	
Thermal Shock Resistance	ISO-10545-8	Available on Request	7.6 * 10 ⁻⁶ (at 400°C)	
Frost Resistance	ISO-10545-9	Available on Request	Resistant	
Chemical Resistance	ISO-10545-12	Always Tested	Resistant	
– Household chemicals and Swimming pool water		ISO-10545-13	MIN. GB	MIN. GB OR MIN. GLB
– Acids and Low Concentration alkalis			From GLA, GLB To GLC	
– Acids and High Concentration alkalis	Available on Request			
Stain Resistance	ISO-10545-14	MIN. Class 3	Class 5
